TECHNOLOGICAL SAFETY GUIDELINES

The Kelsey School Division Technological Studies Safety Guidelines are designed to be a resource for principals, support staff, teachers of technological studies courses, and students. Administration and teachers in technological areas will be familiar with all aspects and responsibilities outlined in the guidelines. Technological Safety Guidelines have been developed in compliance with accepted Workplace Health and Safety Practices. Kelsey School Division Technological Studies Guidelines will be reviewed and updated annually by a committee consisting of the Superintendent and/or Director of Maintenance and Transportation, Senior and Middle years school administrators, and shops teachers.
